PROFESSIONAL SUMMARY

Over **22 years** of experience as a Mechanical Maintenance Skills Supervisor in the pharmaceutical and disposable manufacturing industries. Proven leadership in supervising and developing maintenance teams to ensure optimal equipment performance and strict compliance with GMP and SOP standards. Proficient in SAP PM (Plant Maintenance) for managing preventive maintenance plans, work orders, spare parts inventory, and maintenance records. Strong workshop background, including hands-on experience with lathe and milling machines for precision machining, fabrication, and repairs. Experienced in maintenance and troubleshooting of packaging machinery such as flow wrappers, blister packing machines, shrink tunnels, labeling systems, and automated conveyors. Skilled in mechanical overhauls, root cause analysis, and implementation of corrective and preventive actions (CAPA). Expertise in preventive and predictive maintenance programs to reduce unplanned downtime and improve asset reliability. Strong team collaboration, communication, and continuous improvement mindset to enhance productivity and ensure operational efficiency.
